Course Description

The basic elements of moral theology since Vatican II. Biblical and theological themes that define the person in Christ. The Christian meaning of sin, virtue, conscience, law and moral discernment. The Christian experience of conversion and reconciliation in the way of discipleship.

Course Objectives

Formulated to address one or more of the four goals of theological education at NTC as articulated in the context and scope section of the catalogue.

- a) **Intellectual Formation (IF)** - The course aims to offer students an introduction to the major areas of Catholic moral theology since the call for renewal at the Second Vatican Council while situating them within a broader theological framework thus enabling students to understand the major areas in their relation to each other. The course will expose students to virtue ethics and the importance of the perspective of the acting person in moral theology.
- b) **Cultural Context (CC)** - The course aims to give the students a grasp of the historical development of Catholic moral theology as well as an understanding of the major developments and trends since the Second Vatican Council and the renewal in moral theology that the council fathers called for.
- c) **Personal and Spiritual Formation (PSF)** - The course seeks to foster not only a greater theoretical knowledge of Catholic moral theology but also a greater practical knowledge of the basic contours of assessing, judging and acting well in order to enable students to both better inform and utilize the judgment of their conscience and to nurture their growth in virtuous action.

- d) **Capacity for Ministerial Leadership (CML)**- The course aims provide students the skills for prudential judgment on moral issues using the Biblical and theological tradition of the Church's Magisterium and by cultivating both a theoretical and practical ability to grasp and respond to individual circumstances and occurrences of moral discernment and action in light of contemporary moral problems.

Course Assignments and Evaluation

Course assignments and evaluation will consist of the following four components:

1. **Bi-Weekly Online Forum Discussions:** Students will be expected to contribute to an online discussion forum by posting 5 posts every two weeks. The posts are to be relevant to the weekly readings being discussed and as indicated below in **red font** within the course schedule.
